CISSP Certification Package

Are you looking to attain your CISSP certification?

Now experience at home, at work, or while traveling the same phenomenal CISSP course Shon Harris has taught for companies all over the world.

Not everyone has the time and money to attend college courses, training sessions or boot camp classes. Our **CISSP Certification Package** has been designed for people who desire flexibility in their learning process. You can review individual modules at your own pace and repeat modules that you may need more help on.

The **CISSP Certification Package** costs much less than attending review sessions and boot camp courses, which average $3,500 in course and travel fees. Not to mention the time away from work.

Training Planet's CISSP Certification Package on DVD-ROM by Logical Security and Shon Harris brings together all the materials you need to pass the CISSP exam and allows you to prepare at your own pace. Whether you are a security professional, a seasoned engineer, or are looking for a career change, Training Planet can accommodate your needs. **CISSP Certification Package** is just one of many of Training Planet's solutions aimed at professionals who are preparing for upcoming certification exams. Product Overview

Our objective is not only to prepare you for CISSP certification, but to also provide you with practical, detailed understanding and knowledge of each domain and topics that will be of value and use within your company. Our product focuses not only on the areas from the CISSP examination standpoint, but also from a more detailed and practical perspective.

CISSP CBT DVD-ROM Course

This program is very similar to our CISSP instructor-led classroom training, but instead of being limited to a classroom and keeping pace with the speed of the class, you will get the same content presented in a fashion that is very well suited for a total learning experience. You are able to learn at your own pace, replay key sections, and reap the full benefit of the industry expert, Shon Harris. This 34-hour course is the same class Shon Harris teaches around the world for large corporations and organizations including RSA, BMC Software, NSA, Depts. of Energy and Defense, Bank of America, Centers for Disease Control, Aetna, Minerals Management Service, and many others.

Logical Security provides a comprehensive DVD-ROM CBT program with the goal of helping you achieve your CISSP certification, as well as teaching you all the complex concepts that encompass the Common Body of Knowledge (CBK). You will learn the contents and concepts of the diverse domains and how they should work together to provide true defense-in-depth for every corporation.

This tool provides you with a proven method for mastering this expansive range of knowledge!

Shon provides real-world scenarios, examples, and explanations so that you can truly grasp even the most complicated concepts. The course includes 3-D animations that conceptually walk you through critical topics. Text highlights and illustrations ensure full comprehension of the material.
